- Track scans and copies per account
- Real-time image adjustments – no re-scanning
- Built-in printer support for HP, Canon, Epson, and others
- Batch mode for higher volume jobs
- Auto file-naming templates for easy indexing
- Scan-to-email sends images to anyone, anywhere
- Undo/Redo buttons and keyboard shortcuts
- ICC and Closed-Loop Color copying

PageDrop Software - Scan to the Cloud with your Smart Device - No Computer required

Any PageDrop enabled Context scanner can send documents directly to your preferred destinations. PageDrop does not require a PC. Instead it simply utilizes your smart phone or tablet to control the process. Load the document, scan the QR code, and send the document directly to your desired destination. PageDrop can deliver images by e-mail, directly into your DropBox and print to any of your HP ePrint enabled printers. PageDrop is supported on all IQ and IQ Quattro scanners.

- Supports any smart phone or tablet including iOS or Android
- Standard HTML5 web interface
- Images transferred directly from scanner to your destination
- All scans delivered as industry standard PDF
- Secure transfer through Context PageDrop Servers
- Security enabled to protect your images
